

BUDGET STEEL SLIDING DOORS

ST15

**Closets
Wall Units**

ST15 system

Standard - a narrow and slender profile, with a groove, forming a delicate door frame. Doors made with the use of this profile are light and slender, which gives sublime character to the construction. Thanks to its delicate line, the Standard profile emphasizes the material that is inserted in the front. Wardrobes designed using this profile are perfect for narrow hallways, in the attic and in children's rooms in both classic and contemporary styles.

PARAMETERS

- max door height: 2.75 m
- max door width: 1.25 m

PROPERTIES

- anti-jumping function protects the door against falling out of the bottom track
- buffer strips with short and long hair reduce vibrations when closing the door and protect the interior against dust
- rollers equipped with bearings ensure light door sliding with ease
- quiet work of the running gear

PROFILE COLORS

white

black

mat silver

ST15

Insert materials - Glazing

PLEASE NOTE: ST15 doors are constructed with rollers that protrude beyond the profile and therefore do not lend themselves to transparent glass.
