

BUDGET ALUMINUM SLIDING DOORS

WINNIPEG

Closets
Wall Units

WINNIPEG

system

Winnipeg – available in 3 different profiles, this product line is a lighter and slimmed down version of our Agat Lazuryt, and Onyx lines. Winnipeg combines the functionality of the frame serving as a handle, with its three classic shapes.

The Winnipeg system allows for the production of sliding doors and the combination of various insert materials within one door. It is also possible to use decorative strips in the colour of the system.

Roller hardware is visible in the four corners of the door on the back side; this line lends itself to opaque inserts such as panel, mirror and back painted glass.

PARAMETERS

- max door height 2.70 m
- max door width: 1.25 m

PROPERTIES

- anti-jumping function protects the door against falling out of the bottom track
- buffer strips with short and long hair reduce vibrations when closing the door and protect the interior against dust
- rollers equipped with bearings ensure light door sliding with ease
- quiet work of the running gear
- possibility of using the door closers ensuring soft closing of the door

PROFILE COLORS

anode natural

W = 450+1250 mm - panel 10 mm
W = 450+1250 mm - glass 4 mm
