

FRAMELESS SLAB DOORS

WITH ALUMINUM TRACKS

AERO

Partitions
Closets

AERO

system

Aero – featuring no frame on the doors, and a minimal natural anode aluminum top track. Aero doors can be opened simply by means of light pressure on the door with a small push. This system fits perfectly with modern, industrial, loft, or minimalist interiors.

The Aero system may be produced as a bottom-roll system, to a maximum of 5 sliding doors on a double track.

Aero may also be produced as a top-hung system with no bottom track, to a maximum of 2 doors on a single upper track.

A very modern and clean look, these doors are good two sides and may therefore be used in both closets and as room-dividing partitions.

PARAMETERS

- max door height 2.75 m
- max door width: 1.20 m

PROPERTIES

- modern, industrial look
- wide use in interior design
- a quick way to separate the living space
- quiet work of the running gear
